

7, KENT GARDENS,

EALING,

W.

June 27/1887

Monsieur Emile Cartailhac
Toulouse

Sir

I have the honour to forward
by Book Post, in your kind
acceptance a copy of my work
recently published "Palaeolithic Man
in N.W. Middlesex" & with it
two of my papers which relate to
my discovery of a Palaeolithic Working
Site or Workshop at Acton, Middlesex
which will be of interest to you.

Having long been acquainted
with your important works on

Prehistoric Archaeology, it
gives me pleasure to recognize,
however imperfectly, the high
estimation in which those who like
myself have laboured in the same
field, must ever hold the services
you have rendered to Science.

I shall feel obliged if
you will kindly let me hear of the
due receipt of the parcel.

I am
Yours faithfully
Geo. Allen Brown
