Dear Dr Cartailhac

I hope you have received a letter I wrote to you yesterday in which I thanked you for yr. kindness in writing to me & giving me so much valuable information. I am in some doubts because last night a telegram which I sent to you in the morning to Montregeau was returned "inconnu", therefore it appears that a letter addressed "Montregeau ou Aventignan" may equally fail to find you. I repeated the telegram last night to you at Toulouse, hoping

that someone will send it on to you & to make things more certain I now write & send to Toulouse the substance of my previous communications

We shall come to Montrejeau on Saturday 30th in the morning & drive out to you at Gargas as you direct us in yr. letter unless you meanwhile tell us to alter our plans. We especially want to see Niaux & we shall do whatever you advise until the evening October second, when we ought to be back in Toulouse as we want if possible to

see Altamira & thought to be back in London by 7th or 8th the latest.

There is one point in yr. letter which is not quite clear, you tell us to come to Gargas on 30th or 31st, but as September has 30 days it seems that you may have meant us to come on the 29th. If that is so will you send me a telegram. We return to the Hotel de Commerce, Perigueux this evening & at Toulouse our address will be Hotel Tivollier. We shall hardly leave Perigueux before ~~tomorrow~~ Wednesday afternoon or evening as we want to see the Cathedral &

Mr. Fraure's collection.
You will see this will ~~hardly~~ not leave us time for the Bordeaux trip you suggest, but we shall probably go to Tey jat, before coming to Toulouse.
Mr. Peyroung is here & has shown us everything in the most generous way.
Did I tell you in my letter from England that my brother in law & have both brought our wives. I hope you won't think it quite an invasion when four ofus turn up at Gavarnas. We shall come prepared to stay a couple of nights at the hotel you mention

at Montrejeau.
If you think it would be well to hire a motor (auto) for a day to see caves beyond Gargas & Niaux, will you write to me & let me know the least expensive place to live one in Toulouse.
Of course if we can see things in the time (30th Sept to Oct 2nd) without one so much the better.
With apologies for troubling you with so many matters & again thanking you
Yours very truly
Clisselmann
