

239 Beacon St.

Boston, U. S. Feb. 28. 1881.

Mons.

Émile Cartailhac.

Dear Sir,

I have received all the numbers of the "Materiaux" for the year 1880, except two. Will you kindly forward to me "livraison 6e & livraison 7e", which I have never received, & which I must have before sending the vol. to the book-binder.

You have sent me duplicates of Nos. 8 & 11, which I will return to you, if you desire them.

made at the same time, when Prucher
de Perthes was making his collections &
containing some marvellous objects, unknown
to European scholars. This coll. is now in the
Museum of the "American Museum of Natural
History" in New York (city). I shall hope to
send you photographs of some of the rare objects.
This I will do, if possible, but perhaps not till
next winter. I am, very truly yo,
(over). Henry R. Nagels.

I have received the 1st livraison for 1881, & I enclose herewith a postal-order for 15 francs to pay my subscription for this year, & also 5 francs more for my subscription for the "Fathes des dix premiers volumes."

I hope before long to send you for the "Mémoires", an account of the "De Morgan" collection of palaeolithic and prehistoric objects from St. Asaph,

P.S. Do you know, when the second
vol. of the Complete Rendu of the
Buda-Pesth Congress will
appear?
