I hope you got
the Supplement to
Anthropologia - if not
I will send you another copy

157, Church Road, Essex Road,
London, N

18 February 1878

M. E. Cartailhac,

My dear Friend,

Mr Wathouse, to whom you sent a circular
etc respecting the Paris Exposition has handed it to
me, and asks me (knowing that I was about to write to
you) to convey his regret that he is not able to exhibit
anything.

I had not previously seen one of your circulars,
which gives me information which I have been unable
hitherto to obtain, for reasons I will state presently.

I have some cork models, carefully and accurately
made by myself from my own drawings & measurements, of
the present condition of the following dolmens;—

		(size in inches)		
"Kits Coby House"	Kent	4 1/2	x 4 1/2	= 20 1/4
Dolmen at Plas Newydd	Wales	6	x 6	= 36
do	Capel Garmon "	7 1/2	x 7 1/2	= 56 1/4
do	Great Dune "	6	x 9	= 54
Colum Tuoit	Cornwall	6	x 6	= 36
		82	x 82	= 20 3/4

or about one square foot and a half

These are of the uniform scale of 5 ft to 1 inch $\left(\frac{1}{60}\right)$ linear

I see the date fixed for the arrival of objects for exhibition is 15 March, which is a long time before the opening. If I could have another month I might make other models, as I have plans & drawings of very many monuments, and these models give a better idea of the originals than even photographs. Being so small there can be little difficulty I imagine in finding room for them at a later date, but I should be much obliged if you would inform me as to this. I should like if I could to send you a model of Stonehenge. I have

2 or 3 large diagrams of monuments made to illustrate papers which I could send if they would be useful.

The circular also states that all objects from here must be sent through the English Commissioner, now the English Commissioner, as I am informed, has not only not placed himself in communication with the Anthropological Institute, but the President, Dr. Evans, had, when I last saw him, been unable to find out who or where the said Commissioner was. Will my models be accepted if sent direct to the Exposition in case of the Commissioner still remaining undiscoverable?
