

TELEGRAMS AND TELEPHONE,
BURKITT, CAMBRIDGE 258.

WESTROAD CORNER,
CAMBRIDGE.

Dear Mr. Cartailhac

I have been waiting
until I could send you

This photograph, before

replying to your most

kind letter about Inles.

He came home full of

enthusiasm for the caves

& also for his very kind

WESTROAD CORNER
CAMBRIDGE

friends who have
revealed their mysteries
to him.

He has given four lectures
in Cambridge, & his audience
has been most interested.

I hear on all sides that
he is a very good &
clear lecturer, & makes

the subject most interesting.

But although he has several
Professors, & learned ^{& ladies} folk,

to listen to him, he will
not let the Mother come.

He says he would feel so
nervous if I were there!!!

It is very hard to part
from him again so soon

He leaves for France early
in December to learn some
Spanish (as well as more
French), & then in January
he leaves for Spain!
He is writing to you very soon
& will give you all his
news. With all warmest

greetings from us all
I am dear to Cartailhac
Yours v. sincerely
A. Persis Burkitt
