Dear Sir.

I am sending you the enclosed proofs in the hope that you may be good enough to inform me of any additions or corrections to be made. Should you know of any such I should be very grateful to know of them, so that the list may be as complete & accurate as possible.

I have also constructed a map showing the site of each of the places in the list & shall be glad to send you a copy, with ~~the~~ a drawing of the Torc exhibited, when it is published.

I am, dear Sir,

Yours faithfully
