Dear Professor Cartallhac
I am planning to spend part of the summer in Spain and Southern France with a friend, Dr. Charles Peabody. We are to study paleolithic man. Would you be so kind as to send me the addresses of M. Alcalde del Rio and Père Sierra as we wish to see the caverns of the Province of Santander. Later we shall enter France during the month of July and shall hope to meet you and see something of what you and your confrères are doing in the prehistoric field.
Hoping to hear from you before we sail for Gibraltar on May 18th, I am with many thanks.

yours sincerely
George Grant MacCurdy
