Paris le July 13 1917

Dear Colleague,

I found your letter of July 5 in Santander yesterday and came on here immediately. Professor Obermaier met me very graciously and conducted me to the cavern of Castillo which is truly a marvel. Like Torralba, it alone is worth the journey to Spain.

I am very glad indeed to know what your program is to be during the next few weeks. I note from your letter that you will be occupied the 23 of July and again on July 31 and the

following days. I shall there-
fore arrive in Toulouse, at the
hotel previously named, on
July 23^d so as to be prepared
to meet you on the 24th.

It is very good of you to
offer to guide ^{me} for a few days
through a most interesting
region. Professor Obermaier
has kindly offered me a
similar service in the prov-
ince of Santander.

Professor Breuil left for
Paris two days before my
arrival at Puente Viejo.
Alcalde del Rio, I have not
yet met; but I hope to
see him before my departure

ure for southern France.

With best wishes and renewed
thanks, I am

Very sincerely yours

George Grant Mackenzie
