Prof. E. Cartailhac, 5 Rue de la Chaine, Toulouse (Hte-Garonne).

Dear Prof. Cartailhac:

The two cherished "galets coloriés" reached me safely by registered mail. They will be added to the anthropological collections of the Peabody Museum of Yale University as a gift from you. On behadf of the University and for myself as Curator, I wish to acknowledge with many thanks your generous gift.

It is a source of special satisfaction to know that the two painted pebbles were collected at the type station of Mas d'Azil in your presence and by so notable a collector as Regnault.

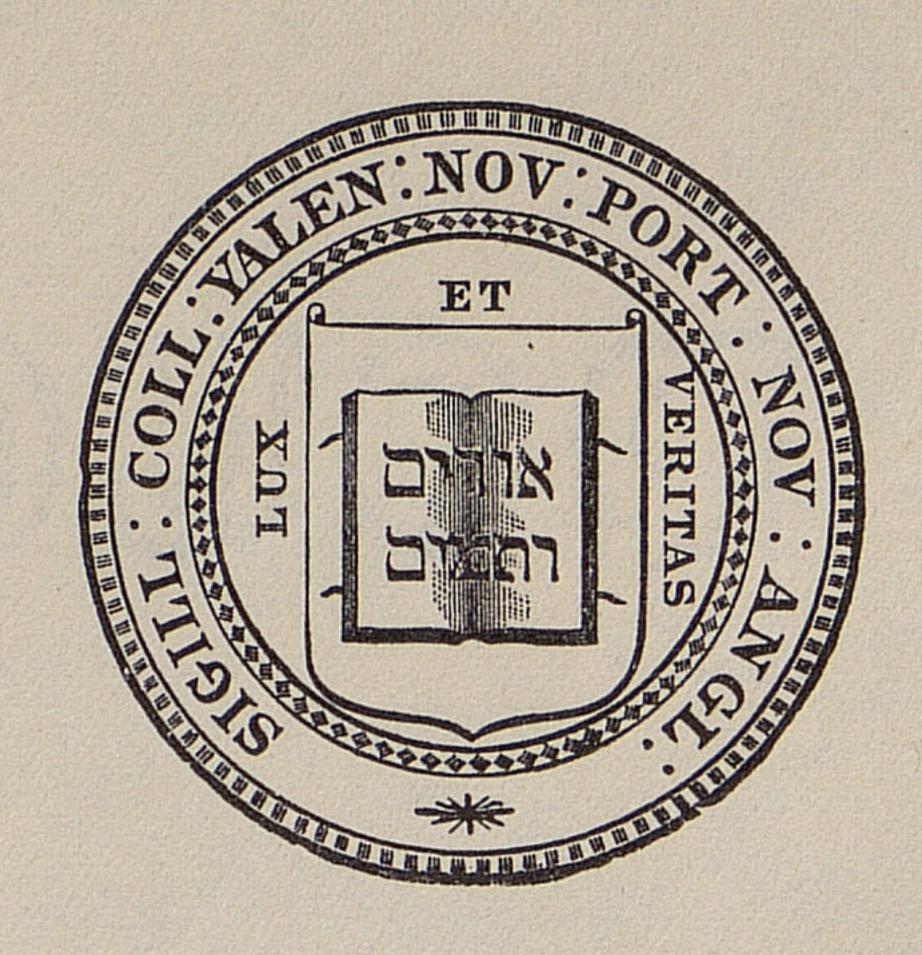

Again with thanks and best wishes in which Mrs. MacCurdy joins me, I am

very sincerely yours,

Glorge Grant Macburdy
