THE AMERICAN MUSEUM OF NATURAL HISTORY
NEW YORK

February 18, 1913

My dear Professor Cartailhac:

The American Museum is indebted to you for a number of plates which you kindly furnished to the Department of Anthropology, through our friend Professor MacCurdy. They will be framed and hung in the room of European Archaeology.

The subject of your work of recent years is now attracting very general attention in this country. I look back upon my expedition with you with the very keenest pleasure.

With warmest regards from Mrs. Osborn, believe me,

Always sincerely yours,

Henry Fairfield Osborn

President.

Professor Emile Cartailhac,
University of Toulouse.
