Dear Professor Cartailhac.

I write to thank you very
heartily for your kind permission
to use the illustrations in my
little book. But still more must
I thank you for the kindness of
your letter & assure you of the
high value which the encouragement
of so well-known a colleague as
you are has for a young archaeologist
such as myself.

Please do not expect too much
of my volume which is to be quite
popular in style. I hope some day
to attempt a much fuller work
on the fascinating subject of the
megalithic monuments. I very much

enjoy your voyage in Spain under
the guidance of M. Siret. I hope
in the future to be able to make it
myself & to see millares which
from your description must be a
most attractive site. Madsen's
new article on megalithic monuments
at Amman in ~~Glyric~~ Syria (Annuaire
of Palestine Exploration Fund 1911) will
interest you if you have not already
seen it.

I hope we shall before very long
see your volume on Sardinia & Corsica;
it is very much needed.

Again thanking you for your kindness
Believe me

Yours very truly

T Eric Peet
